

JOEY R. SALOZA

Computer Engineer, CDAA

Bagbag Tanauan City, Batangas | salozajoe9@gmail.com | 09812484519

LinkedIn: [joey-saloza](#)

SUMMARY

Computer Engineering graduate and Certified Data Analytics Associate (CDAA) with hands-on experience in data analytics, computer vision, and IoT systems integration. Knowledgeable in managing end-to-end technical pipelines from building custom YOLOv8 computer vision models, mobile applications, and embedded hardware, IoT, while applying statistical analysis to evaluate system performance and reliability. Combines data-driven precision with practical software and hardware engineering to transform concepts into fully working prototypes.

WORK EXPERIENCE

OJT Intern | Asia Pacific Network (APN) Philippines Inc.

February 2026 – April 2026

Investment Drive, Madrigal Business Park, Ayala, Alabang, Muntinlupa City

- Reconciled 150 to 200+ daily PHP transactions and 30–50 daily USD transactions across multiple clients, using Pivot Tables to total figures into bank-formatted Excel files.
- Cross-checked Xero compared to internal portal logs each cycle, catching 15–30 discrepancies per account across both PHP and USD.
- Generated and reconciled prepayment invoices for 100+ clients through the Internal Portal.
- Collected inventory data from the OJT team and consolidated it into Google Sheets, covering 50+ physical assets across 33 item categories.
- Ran 200+ test cases with a fellow intern on a client's outbound call system during a one-week SQA rotation and caught one bug in the transfer call flow.

PROJECT EXPERIENCE

GardiaScope Thesis Project | Project Team Leader & Full-Stack Developer

March 2025 – April 2026

Batangas State University

- Led a 2-member team building a deep learning solution for Giardia detection using YOLOv8 model architecture.
- Applied Stratified 5-Fold Cross-Validation and Confusion Matrix Analysis to evaluate model performance, reaching 95% mAP.
- Handled dataset engineering, online augmentation, and annotation for microscopic water sample training data.
- Worked with medical technology experts at UP Manila on laboratory validation and calculate the inter-rater agreement between raters results of moderate level with 35–63% reliability.

TapBiyahe –Public Transit Payment System | Lead Full-Stack Developer

January 2026 – May 2026

Batangas State University

- Validated the problem through QR-based surveys at BSU and local Batangas transport terminals finding that 80% of commuters preferred cashless payment and 97.1% of drivers wanted automated income tracking.
- Designed and developed a native Android contactless transit wallet utilizing Host Card Emulation (HCE) and NFC protocols to transform mobile devices into zero-hardware payment terminals.
- Built the security layer around an async loading check, encrypted session token caching, and a custom 6-digit PIN.
- Implemented real-time database synchronization via Firebase to process fare transactions, dynamic LTFRB route fee calculations, and instant withdrawal ledger updates.

ParkIT – IoT Smart Parking Management System | Lead Developer

October 2025 – November 2025

Batangas State University

- Engineered a fully automated parking system integrating ESP32 microcontroller hardware with a native Android mobile application with Firebase Database.
- Resolved critical engineering challenges, including timestamp synchronization between embedded hardware and mobile systems, and implemented debounce logic for transaction accuracy.

Ask Lex PH Academy

- Conducted a comprehensive analysis of employee turnover trends as part of the Certified Data Analytics Associate (CDAA) certification.
- Utilized Excel and Tableau to perform data cleaning, statistical analysis, and interactive visualization of data.
- Identified key factors influencing employee retention and formulated data-driven strategies for organizational improvement.

SKILLS

- **AI & Computer Vision:** YOLO model architecture, TensorFlow Lite, Object Detection, Deep Learning, Image Annotation and Augmentation, and LLM Prompting.
- **Data Science & Analytics:** Power BI, Tableau, Excel, Exploratory Data Analysis, OpenRefine, Financial Reconciliation (Xero), Data Pipeline, PyTorch, Matplotlib, Pandas, and Pivot Tables.
- **Programming & Development:** Python, SQL, Kotlin, Java, Android Studio, Arduino IDE, and Firebase.
- **Embedded Systems & Hardware:** Arduino, ESP32/Microcontrollers, Sensors, PCB Design, Circuit Design, Schematic Design, TinkerCAD, and NI Multisim.
- **Research & Professional Tools:** AutoCAD (2D), SketchUp (3D), Jira (SQA), Hypothesis Testing, Statistical Tools, Stratified Cross-Validation, Confusion Matrix Analysis, Cohen's Kappa Value, and Git/GitHub.
- **Soft Skills:** Team Leadership, Cross-functional Collaboration, Problem-solving, Attention to Detail.

EDUCATION

Bachelor of Science in Computer Engineering*Batangas State University - The National Engineering University***Batangas City, Batangas****2022 - 2026**

TRAINING AND CERTIFICATION

- **Data Science Essentials with Python** | DICT | October 10, 2025
- **Certified Data Analytics Associate (CDAA™)** | Ask Lex PH Academy | October 8, 2025
- **Apply AI: Analyze Customer Reviews** | DICT | September 13, 2025
- **Network Addressing and Basic Troubleshooting** | DICT | September 30, 2025
- **Data Analytics Essentials** | DICT | September 20, 2025
- **Machine Learning Using Python** | Ask Lex PH Academy | August 2, 2024
- **Lean Six Sigma White Belt Certification** | Ask Lex PH Academy | August 13, 2023

SEMINARS ATTENDED

- **Entrepreneurship in the Digital Age: Innovating with Technology** | Baguio City | November 2025
- **Machine Learning: From Concepts to Real-World Impact** | Baguio City | November 2025
- **Blockchain Technology: Transforming the Digital Landscape** | Baguio City | November 2025
- **Emerging Trends in Optical Fiber and Networking Technologies** | Batangas State University | October 2025
- **Cloud vs. On-Premises** | Batangas State University | September 2025
- **Introduction to Business Analytics** | Alpha TV (Ask Lex PH Academy) | August 22, 2025
